Abstract
The researchers identified types of commissive act that used in Fatherhood Movie that released in June 2021. This research used Yule’s and Searle’s theory to analyse the data. The research was conducted using qualitative research theory by creswell (2017). The researchers used observational technique to collect the data using Sudaryanto (2015). This research got the data from watching Fatherhood movie. From the results of this analysis, the researchers found 15 data divided into 6 types. There are 6 types for offering, 3 types for refusal, 2 types for promising, 2 types for guarantee, 2 types for threatening, and the last 1 type for volunteering. It can be concluded that the most common use of commissive act in the Fatherhood Movie is offering, while the least is volunteering.

Keyword: Commissive act, Illocutionary act, Speech act

Introduction
Speech acts as is the activity that is performed in creating an utterance. Similarly, (Yule, 1996) defined speech acts as activities carried out by utterances. Speech acts are a study of how the speakers and hearer use language. It can conclude that language is not only used to give information or describe things but also used to performed act. The study of speech acts is important in learning how to conduct these actions and recognizing them when they are performed by others. Then, by identifying the meaning and intent of the speaker in a certain context, we may avoid misunderstanding or miscommunication that commonly occurs between the speaker and the hearer via speech act.

According to (Yule, 1996) speech act divided into three: locutionary act, illocutionary act
and perlocutionary act. The illocutionary acts are spoken through the communicative power of speech, such as promising, apologizing and offering (Yule, 1996). As cited in Gea & Johan (2020), Searle divided types of illocutionary speech acts, they are assertive, directive, expressive, commissive, and declarative. This research focuses in commissive speech act.

Commissive speech act is not uttered that are done in order to bind the speaker to do something in the future. One of the phenomena of commissive speech act that occurs in Fatherhood Movie can be seen from dialogue blow:

Liz: Oh okey. **Mom, we will call you as soon as it is over, okey? I love you.**

Marion: No, no! skype me while it is happening.

Matt: What? Mom!

The conversation above takes place in the movie Fatherhood at 0:04:26 minutes. The situation in this conversation described Liz who was about to give birth calling her mother and her mother was asking Liz to call her while Liz was in the process of giving birth. Liz’s utterance is a promise that to be made in the future. This phenomenon is a commissive act. When she said ‘we will call you as soon it's over, okey’ this showed that she ‘will’ call her mother after the birth process. It meanted she was making a promise and she was saying something that she will do in the future.

Lots of researchers have researched the commissive act. There are some of research that related to commissive act. Juniartha et al. (2020) searched about commissive speech act in “John Wick Chapter 2 Movie” by using observation method and analysed by using descriptive qualitative method. The research also used theory of (Yule, 1996) to find out the types of commissive act and used Thomas’s (1995) theory to find out the meaning. The research found four types of commissive speech act, which are as follow: 12% of rejection, 48% of warning, 12% of promise, and 28% of threat. The previous research has similarities to this research in term of using movies as a data source. The theory that the previous research and this research used to find out the types of the commissive acts is different.

Syafitri (2020) searched about commissive speech act used by the shopping host of MNC shop. The research used qualitative data and collected the data by using observational method. The theory of types are based on Alwi’s and Putrayas's theory. The research found 55 data that are classified into 3 types, they are declarative mood, interrogative mood, and exclamative mood. The previous research and this research used the same method that is descriptive qualitative and observation method. The theory that the previous research and this research are different. The previous research used different data source while the previous research used advertisement as a data source and this research used movie as a data source.
There are similarities this research with the previous research such as used the same method. There are also has differences between this research and previous research. In conclusion, the researchers used (Yule, 1996) and (Searle, 1975) theory in analysed the kinds of commissive speech acts.

**Literature Review**

**Commissive act**

According to (Yule, 1996) commissive is types of illocutionary act that is commit the speaker to some future course of action. When persons act commissive, they may use performative verbs such as promises, oath, guarantee, and vow. Based on (Searle, 1975) theory, he differentiated commissive act into some types, those are offer, guarantee, volunteer, refusal, threat, and promise.

**A. Offer**

Based on (Searle, 1975) explanation, offer is to express your willingness to do something for or give something to someone. The speaker makes an attempt to make an offer to the interlocutor. Example, “if you want to take another piece of cake, I will give you one” (Hadad, 2021).

**B. Guarantee**

Based on (Searle, 1975) explanation, guarantee is a strong commitment that something will happen or that you will do something. It is a promise that something will happen or that something exists. Example, “I bet his existence.” (Devi, 2020).

**C. Volunteer**

Based on (Searle, 1975) explanation, volunteer is described as a willingness to accomplish something without being forced to do so. It is to provide or offer to provide a service of one’s own free will. It entails voluntarily providing or giving without being asked. Example, “Let me help you escape.” (Devi & Degaf, 2021).

**D. Refusal**

Based on (Searle, 1975) explanation, refusal is an unpleasant reaction to invitations, requests, offers, and suggestions. The speaker has a goal or a viewpoint. As a result, the speaker rejects the interlocutor’s point of view. The majority of the sentences are negative. Example, “We will not do that” (Nainggolan et al., 2020).

**E. Threat**

Based on (Searle, 1975) explanation, threat is a declaration of intent to punish someone. It means to intimidate the listener if the listener refuses to obey the speaker’s demand. The speaker attempts to persuade the listener by using an impact word in one of the phrases. Example “I’ll punish you if you don’t behave yourself.” (Khadim & Mahood, 2013).

**F. Promise**
Based on (Searle, 1975) explanation, promise is a statement that tells someone that you will do something or that you will not do something. This is a type of verbal promise made by one person to another to accomplish something in the future. The speaker makes an attempt to commit to doing what the speaker says. The purpose of the phrase is to persuade the listener that the speaker is honest in his or her intentions. Example “I will be there at 5 o’clock” (Sembiring & Ambalegin, 2019).

Method

The researchers analysed the sort of illocutionary in the Fatherhood Movie using qualitative research by creswell (2017). The qualitative research described an analysis of illocutionary in Fatherhood Movie. The technique that the researchers used for collecting the data were observational method by Sudaryanto (2015). There are 5 steps to collect the data. First, watching the movie several times. Second, observing the dialogue from script. Third, collecting the data by watch the movie and understand deeply and look for all the utterances. Four, collect the data and find the utterance that contain of illocutionary act. The last, classify the utterances into the types of illocutionary act in Fatherhood Movie.
